Moon Chun Memorial College (W11), University of Macau, Avenida da Universidade, Taipa, Macau, China

Email: yulinwei016@gmail.com | Tel: (+86) 13730844300, (+853) 68676602

## EDUCATION

**University of Macau, Faculty of Education**

**Degree:** *B.Ed. in Integrated Science, with specialization in Chemistry* 09/2020–06/2024 (expected)

**Grade:** 3.54/4.00 (Ranking in major: 1st out of 10)

**Honors:** Dean's Honour List 2020–2021, 2021–2022, 2022–2023

**Core Courses:** Emerging Pedagogies of STEM Teaching (A), Assessment in Science Education (A), Science Education in Secondary Schools (A), Scientific Inquiry and Practical Work in Secondary Schools (A), Educational Research (A), etc.

**Fudan University**

*Hong Kong and Macao Ten Thousand Program_Autumn Course* Online, 09/2022 – 12/2022

**Course Taken:** Probability and Statistics

**University of Cambridge, Institute of Continuing Education**

*Virtual Summer Festival of Learning course* Online, 07/2021

**Course Taken:** The Psychology of Adolescence: Brain and Behaviour

## TEACHING EXPERIENCE

**Supervised Teaching and School Experience, Chemistry and Scientific Inquiry Teacher**

Macau Baptist College (Escola Cham Son de Macau) Macau, 10/2023 – 12/2023

*Supervisor: PROF. Bing WEI | Mentor: MS. Ka-Ming TSANG*

- Taught junior high school grade 2 and grade 3 Chemistry, senior high school grade 2 Scientific Inquiry, specific works including giving lectures, teaching lab classes, assessment, *etc.*

## ACADEMIC RESEARCH EXPERIENCE

**A Pedagogical Framework to Foster Computational Thinking in STEM**

University of Macau, Educational Research Center Macau, 03/2022 – Present

*Research Project | Advisor: PROF. Emily Pey-Tee OON*

- Collaborating with a Ph.D. student to conduct research related to computational thinking (CT), including curriculum design, pedagogical framework design aimed at improving students' computational thinking ability. Drafting a paper titled "A Pedagogical Framework to Foster Computational Thinking in STEM: From the Perspective of Teachers" as the first author.

**The Meaning of "Experiment" in Junior and Senior High School Science Curriculum Standards in China**

University of Macau, Faculty of Education Macau, 11/2022 – Present

*Research Project | Advisor: PROF. Bing WEI*

- Conducting research on the meaning of "experiment" in junior and senior high school science curriculum standards in China. Conducting content analysis, managing and analyzing data, and drafting a paper titled "The Meaning of 'Experiment' in the Chemistry Curriculum Standards in China: A Content Analysis" in progress.

**A Study of Primary Teachers' Perceptions about Science Curriculum in China;**

**The Representation of Learning Outcomes Stipulated by the Intended Curriculum in Chemistry Textbooks**

University of Macau, Faculty of Education Macau, 05/2023 – 07/2023

*Summer Research Programme | Principal Investigator: PROF. Bing WEI*

- Engaged in Summer Research Programme with the project title of "A Study of Primary Teachers' Perceptions about Science Curriculum in China: From the Lens of Curriculum Ideology". Conducted content analysis on the representation of learning outcomes stipulated by the intended curriculum in four series of chemistry textbooks, based on legitimation code theory. Conducted data analysis and drafted the results part of a paper currently under revision.

**Preparation of Self-suspension Adsorption Functional Materials by Modification of Hollow Glass Microspheres**

Southwest Petroleum University, School of Chemistry and Chemical Engineering Sichuan, 06/2022 – 07/2022

*Assisted research | Principal Investigator: PROF. Bing WANG*

- Assisted research on the production of self-suspension adsorption functional materials by modifying hollow glass microspheres. Conducted experiments, managed data, drafted and proofread the review paper currently under revision.

**A Comparative Study of Technological and Engineering Education Policies in China and the USA**

University of Macau, Faculty of Education Macau, 05/2022 – 06/2022

*Assisted research | Principal Investigator: PROF. Bing WEI*

- Assisted STEM education policy research of the *Standards for Technological and Engineering Literacy* published in the United States (ITEEA, 2020), and *The Science Curriculum Standards of Compulsory Education (the 2020 version)* in China (MoE, 2020). Conducted literature review and conducted content analysis.

## PUBLICATIONS

Wei, B., Zhan, Z., Jiang, Z., & **Yu, L.** (2023). Representation of Learning Outcomes Stipulated by the Intended Curriculum in Four Series of Chemistry Textbooks: Based on Legitimation Code Theory. (Paper in Revision)

Wang, B., Qiu, R., **Yu, L.**, Zhao, D., Zeng, Y., & Xiong, M. (2023). Modifying Hollow Glass Microspheres to Obtain Self-floating Adsorbents for Wastewater Treatment: A Review. (Paper in Revision).

## SERVICE

**Student Representative, Programme Management Committee of Integrated Science Programme (PMC-INS), University of Macau** Macau, 06/2022 – Present

**12th PR Student Ambassador, University of Macau** Macau, 03/2022 – Present

**House Leader, House of Integrated Science, University of Macau** Macau, 08/2022 – 08/2023

Award: Academically Outstanding House Award 2022/2023; The Most Active House Award 2022/2023

**Secretary, Drama Society, University of Macau** Macau, 10/2021 – 10/2023

**Associate House Leader, House of Integrated Science, University of Macau** Macau, 08/2021 – 08/2022

## ADDITIONAL INFORMATION

**Software and Tools:** SPSS, Winsteps, ENA Web Tool, Scratch, mBlock, MATLAB, Arduino

**Language Proficiency:** Chinese (Mandarin: Native; Cantonese: Listening and Writing), English (IELTS: Overall 7.0)
